

25 YEARS OF CIO SECURITY

CIO Security is celebrating 25 years of providing Security Services as of 25th of August. We would like to thank everyone who has been a part of our journey and the efforts made over the years to promote quality manned guarding services throughout the UK.

CIO Security commenced retail security services for ALDI in September 2000, and has branched out, continuing to provide various security ministrations. We currently deliver guarding to numerous properties, including various retail stores, construction sites, commercial properties, warehouses, residential properties, ATMs, food banks, and safe houses. We now provide dog handling services as well as using body-worn cameras to enhance safety and the reliability of our business.

CIO Security would like to take a moment to celebrate this memorable milestone, reflecting on our past present and future in the security industry. We hope for the opportunity to work with you in the future and thank all current partners for their support.

IMPORTANCE OF SECURITY: WHAT WE DO FOR OUR COMMUNITY

As a security company, our priorities lie with the safety of our clients and their sites, but this responsibility extends to the wider community. By acting as a form of protection, we ensure that the community feels safety on guarded grounds, leading to a more welcoming domain. This allows connections to be made between our employees, our clients and the wider community, building trust and confidence in safety and security.

CIO Security Guards are equipped with first-aid training and are informed on how to react in a plethora of situations, and guard community spaces such as parks and homeless shelters. This further impacts the security of society by acting as safe-spaces and points of connection and rest for many individuals. CIO believes in care for the community and security helps those with vulnerabilities who may be overlooked to carry out daily tasks like, shopping, walking in the park and eating food, feeling safe while doing so.

These roles may seem invisible but maintain boundaries of respect of public and private spaces, leading to a happier and more comfortable environment. We would like to thank our officers for putting themselves in the line of danger to protect individuals daily and ask that their hard work is recognised.

DUXFORD AIRSHOW: ANOTHER SUCCESS!

The July 25th Airshow at IWM Duxford was yet another successful event. It is a privilege to work alongside ZE Global and ensure an enjoyable and safe experience for visitors, while celebrating and remembering the rich history of UK aircrafts. The excellent weather only elevated this experience, and CIO was able to deliver outstanding service.

IWM will be hosting the Duxford Flying Evening on Saturday, 16th August, and we strive to surpass expectations by providing the best service possible.
