

February is
**NATIONAL
HEART
MONTH**

Greetings from CIO Security,

As we begin the month of February, we would like to share a few key highlights and awareness tips with our audience:

1. **Valentine's Day (February 14):** A global celebration of love, compassion, and kindness—embracing relationships among couples, families, organizations, and communities.
2. **Black History Month:** A time to honour and celebrate inspirational Black leaders and figures, while educating others about the rich history, culture, and experiences of the Black community.
3. **National Library Lover's Month:** A reminder that libraries remain vital community resources. This month encourages appreciation for libraries as important hubs of knowledge, learning, and accessibility for all.
4. **World Cancer Day (February 4):** A Day of awareness recognizing that many of us have been affected by cancer, either directly or indirectly, and emphasizing the importance of education, prevention, and support.

As Valentine's Day approaches, we would like to take a moment to extend our warmest wishes to each of you. February is a special time to celebrate love, kindness, and appreciation—not only in our personal lives, but also in the relationships we build every day through trust, teamwork, and shared purpose.

This month, we encourage everyone to spread love in all its forms: through small acts of kindness, words of encouragement, and moments of gratitude. A little compassion can go a long way in strengthening our communities and workplaces.

We would also like to take this opportunity to sincerely commend our dedicated officers across all our sites for their outstanding work. Your professionalism, commitment, and tireless efforts do not go unnoticed. You are the heart of our operations, and we are truly grateful for the care and excellence you bring to your roles each day.

To our clients and colleagues, thank you for your continued support, collaboration, and trust. We value our partnership and look forward to growing together.

Wishing you all a Valentine's Day filled with warmth, appreciation, and positivity throughout the month and beyond.

**With gratitude and appreciation,
CIO Security**
